Lucas Zacarias de S Duarte

Software Engineer - Web3 | UI/UX | Product Design | React Native |
Typescript | Javascript
Recife, Pernambuco, Brazil

Summary

With a ten-year trajectory in the technology industry, he has performed a variety of functions, ranging from development to design, business and management. My passion lies in innovative products that drive innovative business solutions.

I have a solid experience as a mobile and web developer, with a preference for React Native and React.js.

Some tools and technologies I use, including React Native, React.js, Firebase, JavaScript, Bootstrap, Jest, Git, API integration, Figma and Illustrator.

As a product designer, I focus on fintech and web3, always seeking to unite design and functionality in an impactful way.

Experience

Myte Design

Chief Executive Officer
May 2024 - Present (7 months)

Lovecrypto Inc

5 years 4 months

CEO and co-founder

March 2024 - Present (9 months)

CPO and co-founder

August 2019 - March 2024 (4 years 8 months)

Recife, Brazil

Web Development with React and Mobile Development (iOS and Android) with React Native (Redux, Redux Saga, Persist, Rest API). Web and mobile interface design with Illustrator, Photoshop and Adobe XD. Usability tests, heat maps. Responsible for any issues related to the company's product.

Cheesecake Labs

Software Engineer

September 2023 - March 2024 (7 months)

Recife, Pernambuco, Brazil

Frontend Development. Specializing in React frameworks such as Gatsby and Next.js, I worked on creating and enhancing web applications that deliver exceptional user experiences. Leveraging my expertise in React, I collaborated closely with other engineers to develop and deploy solutions tailored to clients' unique needs.

Toptal

React Native Developer

March 2022 - June 2022 (4 months)

During my time at Toptal, I worked as a React Native developer on a project focused on developing an application to control internal functions of a multinational company. Used React Native, TypeScript and Redux technology stack to create a fluid experience for users. My contribution helped to achieve the project objectives effectively, improving efficiency in the company's management.

Capgemini
